## THE HEART OF COLLINGWOOD

The 'Heart of Collingwood' welfare fund is an initiative of the CFC Past Players Association to raise funds **specifically** to assist CFC Past Players who may be suffering debilitating football related injuries combined with financial hardship. The key objective is to identify these players and prioritise the needs. The support will typically come in the form of subsidisation of private health insurance (for 2 years) to ensure corrective surgery can be carried out within reasonable timeframes. There will be 'eligibility criteria' formulated over the next few weeks and this will be communicated to CFC Past Players. The 'eligibility criteria' will enable the CFCPPA to prioritise applications in a fair and transparent manner. Amongst the criteria will be to ensure you are a financial member of the CFCPPA (membership payment details are in this newsletter). As you may be aware **Murray Weideman** has put his name and energy to support this fantastic initiative. Please get behind the CFCPPA and the 'Heart of Collingwood' fund raising activities to help us stick by our team mates.
